

MerCruiser

Marine Scan Tool

Version 4.9 Software

Product Features & System Support

Supports MerCruiser, Volvo Penta, Indmar, PleasureCraft Marine, Crusader, Marine Power, Kodiak, Flagship Marine, GM RamJet Engines and more...

Powerful Features

The MerCruiser marine scan tool is a powerful yet user-friendly diagnostic tool that supports the widest range of EFI system types in the industry. No other marine scan tool even comes close to covering the range of engine manufacturers that the MerCruiser scan tool covers. Better yet, the scan tool's software is built-in and ready to perform with no optional cartridges to buy.

Portable and Easy to Use

Self contained and easy to use, the scan tool displays complete EFI system information allowing you to perform quick component level diagnostics. The scan tool's bright, sunlight readable display delivers live sensor readings, fault codes, fault code explanations and EFI test results quickly and accurately. It's built-in fuel injector tester performs both single and multi-pulse tests to help pinpoint injector problems.

Upgradeable and Rugged

The tool is software upgradeable for future applications and also features a large water and oil resistant keypad designed for the marine service environment. Supplied in a ruggedized padded

carrying case, the MerCruiser scan tool leads the marine diagnostic tool industry in features, support, dependability and affordability.
